DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 7/16/08 has been entered.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 7/16/08 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner. Form1449 is attached.

Claims Remain Allowable

As the claims have been previously allowed and remain unchanged. The examiner did not determine that the cited prior art would change the allowed status of the claims.

Claim 3 (being the only independent claim) recites a semiconductor integrated circuit comprising a plurality of modules having their operations controlled by respective chip select signals, and that each of the plurality of modules has a control circuit

controlling an operation of reading or writing data from or into the memory cell, respectively.

In addition, claim 3 recites that the plurality of modules have a different number of word lines from each other such that one of the plurality of modules has a finite maximum number of word lines.

Furthermore, claim 3 recites that the control circuit included in one of the modules that does not have the maximum number of word lines among the plurality of modules controls an operation of reading or writing data from or to said memory cell in a test mode, irrespective of a value of the chip select signal, only when values of one or more prescribed bits forming an address signal are prescribed values.

The cited prior art does not disclose all of these features nor does it render the present claims obvious.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cynthia Britt whose telephone number is 571-272-3815. The examiner can normally be reached on Monday - Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jacques Louis-Jacques can be reached on 571-272-6962. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
